DECLARATION.

to preserve the relations of perce and a-mity with the U. S. of America, having un-

fortunately failed, his Royal Highness, acting in the name and on the behalf of his majesty,

deems it proper publicly to declare the causes

and origin of the war in which the govern-ment of the U.S. has compelled him to engage.

The earnest endeavors of the Prince Regent

[Here the Declaration enters into an histo-rical account of the Berlin and Milan decrees, and other hostile measures of France towards neutrals; the retaliatory orders in council of G. B.; the consequent embargo, non-inter-course and non-importation acts of the Ameri-can Congress, and the different diplomatic representations and explanations which have ta-ken place on those subjects between G. Bri-tain and America, the particulars of all which have been long before the public. The declaration then continues-]

The American government, before they received intimation of the course adopted by British government, had in fact proceeded to the extreme measure of declaring war, and is-suing "letters of marque," notwithstanding they were previously in possession of the re-port of the French minister for foreign affairs. of the 1" h of March, 1812, promulgating anew the serlin and Milan decrees, as fundamental laws of the French empire, under the false & extravagant pretext, that the monstrous principles therein contained were to be found in the treaty of Utrecht, and were therefore binding upon all states. From the penalties of this code, no nation was to be exempt which did not accept it, not only as the rule of its own conduct, but as a law, the obserhe private and public vessels of the U. States. vance of which it was also required to enforce

In a manifesto accompanying their Declaration of hostilities, in addition to the former complaints against the orders in council, a long list of grievances was brought forward; some trivial in themselves, others which had been mutually adjusted, but none of them such as were ever before alledged by the American government to be grounds for war. As if to throw additional obstacles in the way of peace, the American Congress at the same time pa sed a law prohibiting all intercourse with 6: Britain, of such a tenor, as deprived the executive government, according to the President's own construction of that act, of all power of restoring the relations of friendly intercourse between the two states, so far at least as con-cerned their commercial intercourse until Congress should re-assemble. The President An act to impose a duty on the importation of the U. S. has, it is true, since proposed to G. B. an armistice; not, however, on the admission that the cause of war hitherto relied on was removed; but on condition, that G. Britain as a preliminary step, should a cause of war, now brought forward as such for the first time, namely, that she should abandon the exercise of her undoubted right of search, to take from American merchant vessels British seamen, the natural born subjects of his Majesty; & this concession was required upon the mere assurance that laws would be enach ted by the legislature of the U. States to prevent such seamen from entering into their service; but independent of the objection to an exclusive reliance on a foreign state, for the conservation of so vital an interest, no explanation was, or could be afforded by the agent who was charged with this overture, either as to the main principles upon which such laws An act to encourage vaccination.

An act supplementary to an act entitled which it was proposed they should contain the laws suppless insurrections second proposal was made, again offering an act to provide for calling forth the miliwould secretly stipulate to renounce the exercise of this right in a treaty of peace. An immediate and formal abandonment of its exercise as preliminary to a cessation of hostilities, was not demanded; but his Royal High-Resolution, relative to the brilliant achieveness the Prince Regent was required; in the nents of captains Hull, Decatur, Jones and name and on the behalf of his Majesty, secretly to abandon what the former overture had

This most offensive proposition was also rejected, being accomparied as the former had been by other demands of the most exceptionable nature, and especially of indemnity for all American vessels detained and condemned under the orders in council, or under what were termed illegal blockades—a compliance with which demands, exclusive of all other objections, would have amounted to an absolute An act authorising the Secretary of the blockades were founded. government of the United States. The sus-pension of the practice of impressment was insisted upon, in the correspondence which passed on that occasion, as a necessary prelimina ry to a cessation of hostilities : Negociation, i was stated, must take place without any sus pension of the exercise of that right; and also without any armistice being concluded; but G. B. was required previously to agree, without any knowledge of the adequacy of the system which could be substituted, to negociate upon the basis of accepting the legislative regulations of a foreign state, as the sole equivalent for the exercise of a right, which e has felt to be essential to the support of

her maritime power. If America, by demanding this preliminary concession, intend to deny the validity of that right, in that denial G. B. cannot acquiesce; will she give countenance to such a preten sion, by acceding to its suspension, much less to its abandonment, as a basis on which to treat. It the American government has devised, or conceives it can devise, regulations, which may safely be accepted by G. Britain, as a substitute for the exercise of the right in question, it is for them to bring forward such a plan for consideration. The British government has never attempted to exclude this question from amongst those on which the two states might have to negociate: It has, on the contrary, uniformly professed its readiness to receive and discuss any proposition on this subject, coming from the American government: t has never asserted any exclusive right as to the impressment of British seamen from American vessels, which it was not prepared to acknowledge, as appertaining equally to the government of the U.S. with respect to the American scannen when found on board British merchant ships: But it cannot, by acceding to such a basis in the first instance, either as-sume, or admit that to be practicable, which, when attempted on former occasions, has always been found to be attended with great difficulties, such difficulties as the British commissioners in 1806 expressly declared, after an attentive consideration of the suggestions brought forward by the commissioners on the part of America, they were unable to surmount. Whilst this proposition, transmitted through authority himself, to sign an agreement on the part of his government. It was obvious that any stipulations entered into, in consequence of this overture, would have been binding on the British government, whilst the govern-ment of the U. States would have been free to refuse or accept them according to the circumstances of the moment. This proposition was therefore necessarily declined.

After this exposition of the circumstances which preceded, and which have followed the declaration of war by the U. States, His Royal Highness the Prince Regent, acting in the name and on the behalf of his Majesty, feels. had been regulated in the transactions connect-

ed with these discussions. His Royal Highness can never acknowledge any blockade whats ever to be illegal, which has been duly notified and is supported by an adequate force, merely upon the ground of its extent, or because the ports or coasts blocka-ded are not at the same time invested by land. His Royal Highness can never admit, that neu tral trade with G. Britain can be constituted a public crime, the commission of which can expose the ships of any power whatever to be de nationalized. His Royal Highness can never admit that G. Britain can be debarred of its rights of just and necessary retaliation, through the fear of eventually affecting the interest of a neutral. His Royal Highness can never admit that in the exercise of the undoubted and hitherto undisputed right of searching neutral merchant vessels in time of war, the impressment of British seamen, when found there in, can be deemed any violation of a neutral flag. Neither can he admit the taking such seamen from on board such vessels, can be considered by any neutral state as a hostile measure, or a justifiable cause of war.

There is no right more clearly established, than the right which a sovereign has to the allegiance of his subjects, more especially in time of war. Their allegiance is no optional duty, which they can decline, and resume at pleasure. It is a call which they are bound to obey; it began with their birth, and can only terminate with their existence. If a similarity of language and manners may make the exer-cise of this right more liable to partial mistakes and occasional abuse, when practised to wards vessels of the U. S .- the same circumstances make it also a right, with the exercise of which, in regard to such vessels, it is more difficult to dispense But if, to the practice of the U.S. to harbor British seamen, be added their assumed right to transfer the allegiance of British subjects, and thus to cance the jurisdiction of their legitimate sovereign, by acts of naturalization and certificates of citizenship, which they pretend to be as valid out of their own territory, as within it, it is byious that to abandon this ancient right of G. Britain, and to admit these novel pretensions of the U. S. would be to expose to dan-

Without entering minutely into the other topics, which have been brought forward by the government of the U.S. it may be proper demand, that they should force British manufactures into France; and she formally declared her willingness entirely to forego, or mod in concert with the U.S. the system, by which a commercial intercourse with the enemy had been allowed under the protection of licences; provided the U.S. would act toards her, and towards France with real impartiality. The government of America, if the differences between states are not interminable, has as little right to notice the affair of master, have died of their wounds. the Chesapeake. The aggression, in this in stance, on the part of a British officer, was ac knowledged, his conduct was disapproved. a reparation was regularly tendered by Mr Foster on the part of his majesty, and accepted by the government of the U.S. It is not less unwarranted in its allusion to the sion of Henry; a mission undertaken without the authority, or even knowledge, of his majesty's government, and which Mr. Foster was authorised formally and officially to disa-vow. The charge of exciting the Indians to of fensive measures against the U. S. is equally void of foundation. Before the war began a policy the most opposite had been uniform pursued, and proof of this was tendered by Mr. Foster to the American government

A gainst this course of conduct, the real cause of the present war, the Prince Regent solemnly protests. Whilst contending against France n defence not only of the liberties of G. H. M. ship Poictiers, at sea, Oct. 23. SIR-It is with the most bitter sorrow and distress I have to report to your exhimself called upon to declare the leading principles, by which the conduct of G. Britain Explicitly the capture of his Majesty's brig Frolic, by the ship Wasp, belonging to the United States of America, on the 18th

Having under convoy the homeward bound trade from the Bay of Honduras, and being in latitude 36 deg. N. and 64 deg. W. on the night of the 17th, we were overtaken by a most violent gale of wind, in which the Frolic carried away her mainyard, lost her topsails, & sprung the main topmast. On the morning of the 18th, as we were repairing the damages sustained in the storm, and re-assembling the scattered ships, a conspicuous ship came in sight, and gave chase to the

The merchant ships continued their voyage before the wind under all sail; with the scantling of a 74 gun ship, the Frolic dropt astern, and hoisted Spanish colors, in order to decoy the stranger under her guns, and give time for the convoy to escape. About ten o'clock, ders on her quarter deck and forecastle, both vessels being within hail, we hauled to the wind, and the battle began. The carronade on her upper deck, with a comson to expect its speedy termination in pliment of 478 picked men. superior fire of our guns gave every reaour favour, but the gaffhead braces being rigging and above water; her loss in kilshot away, and there being no sail on the led and wounded I am not aware of, but I main-mast, the brig became unmanageable, and the enemy succeeded in taking a position to rake her, while she was unable to bring a gun to bear.

After laying some time exposed to a most destructive fire, she fell with the bowsprit betwixt the enemy's main and mizzen rigging, still unable to return his

WASHINGTON CITY, March 5. About to add the solemnity of an oath to the obligations imposed by a second call to the station, in which my country heretofore placed me, I find, in the presence of this respectable assembly, an opportunity of publicly repeating my profound sense of so distinguished a con fidence, and of the responsibility united with by such an evidence, that my faithful endea vors to discharge my arduous duties have been tavorably estimated; and by a consideration of the momentous period at which the trust has been renewed. Oh! shame to Britain, who with bribing gold But ist the savage, scarce of "human mould, Works him to Fury, by unhallow'd means, Assistant actors in death's bloody scenes: Loud yell the ministers of bloody strife, And scalp the victims quiv'ring still with life; Whilst Britons, once brave Britons, basely

stand, And view the slaughter of our SPARTAN BAND!

Ye gallant spirits numbered with the dead! Ye valiant soldiers, who your life-blood shed Ye who so bravely fought-so nobly fell, For ye shall never-fiding laurels bloom, And Hist'ry's page lament your early doom Could the mute dead return to Realms of Light And burst the banners of eternal night-Were it but granted that the grave, Could for a time, yield up the martyr'd brave-Then in their country's grateful plaudits blest With honest joy, they'd sink to endless rest.

We tender mothers, who you all have lost, Ye weeping widows whose best hopes are cross'd,

Te helpless orphans—ye heart-broken sires, Oh! that your tears could quench War's Motoch fires?

But if the motive sanetifies the deed, And duty bids the patriot soldier bleed—
If for his country's rights he yields his breath,
And falls a victim on the battle-heath— Then, alone, alone, does war's destructive flame, Cover with GLORY the brave soldier's name Weep then Columbians, duty bids you weep,
For those brave Heroes, who untimely sleep!
Spare, God of Battles! spare the valiant host;
Nerve their strong arms, and give them hearts
of steel,

To cope with enemies that cannot feel-Yet 'midst the tide of battles hid them spare, Nor e'er reject a yielding forman's prayer. AMICUS.
